of the page.

The Future Is Spiral

OUR MISSION

THE SPIRAL DUCT MANUFACTURERS ASSOCIATION (SPIDA) was formed to support our members and to promote the use of spiral duct and flat oval duct by informing the public of its benefits and advantages. SPIDA's membership is composed of companies engaged in the fabrication and distribution of spiral duct, flat oval duct, and related items within North America.

BENEFITS OF MEMBERSHIP

Technical Assistance - SPIDA offers technical assistance from many of the leading experts in the spiral duct industry, many with over 30 years of experience. Membership provides access to the resources of professionals in commercial, industrial and residential spiral duct manufacturing and many of their key suppliers. Members are located throughout all regions of North America.

Marketing Assistance - SPIDA publishes a list of member companies on the website for Engineers and customers to use to locate a local manufacturer or supplier. Inquiries that come into the SPIDA office are directed to companies in their region. Member companies can also place ads or articles about projects in the special SPIDA insert in the January issue of SNIPs magazine.

Publications - SPIDA has several brochures including a Designer's Guide and both Round and Flat Oval duct/fittings dimensional detail sheets. There is also a Safety Manual for manufacturers and installers, as well as various white papers on different technical topics. The most recent publications are Specification for Round and Flat Oval Duct and Fittings and the revised Tolerance Standards.

Testing and Research - SPIDA is constantly engaged in several research and testing projects. SPIDA recently completed a flat oval testing project.

The gauge/reinforcement table will appear in the SMACNA HVAC Duct Construction Standards, Fourth Edition, when it is released for publication. SPIDA is continuing flat oval research to develop a computer modeling program for flat oval deflection under pressure. SPIDA has a presence at meetings of SMACNA, ASHRAE, and AMCA.

Educational Meetings - Twice a year members come together for educational programs, both technical and business related and networking with other members. Recent meeting topics include:

- Characteristics and Competencies of Outstanding Leaders
 - Building Information Modeling (BIM)
 - Proper Cleaning and Restoration of Duct
 - Internally Insulating Spiral Duct
 - HVAC Air System Leakage
 - Conversion of Rectangular Duct Systems to Spiral Duct Improving
 - Sound Performance in Classrooms
- One meeting is held the day before AHR Expo at the same location and the second meeting is held at the end of April or early May.

Membership Levels

ENGINEER MEMBERS

Engineers may join at the reduced rate of \$100 per year by March 31st (pending board approval). *Engineer Members receive:* SPIDA Pipeline newsletter (quarterly) - Access to website general information - Individual listing on SPIDA website on "Engineer" page - Access to new data/testing results for a small fee - May attend both membership meetings at regular membership rate

ASSOCIATE MEMBERS

Vendors and Suppliers may join at the ASSOCIATE level for \$400 per year by March 31st. *Associate Members receive:* SPIDA Pipeline newsletter (quarterly) - Access to website general information - Company listing on SPIDA website in their specific region - Access to new data/testing results for a fee - May attend both membership meetings at regular membership rate - Sponsorship opportunities

INDUSTRY SUPPORTERS

Manufacturers, and companies who want to be a little more involved become INDUSTRY SUPPORTERS for \$650 per year by March 31st. *In addition to the above benefits, Industry Support-ers receive:* Access to Members Only page on the SPIDA website - One complimentary registration to the General Membership Meeting - Opportunity to serve on the SPIDA Board of Directors - One voting privilege per company - One copy of SPIDA literature complimentary upon joining

BRAD THOMAS RESEARCH CONTRIBUTOR

Companies who want to support research and testing efforts and have a leadership role in the organization join as a BRAD THOMAS RESEARCH CONTRIBUTOR and pay \$1,200 per year by March 31st.

In addition to all benefits listed above, Brad Thomas Research Contributors receive: Acknowledgment on website and newsletter - Company listing on SPIDA website in all regions - Opportunity to contribute to development and testing projects - Access to new data/testing results at no charge - May participate in new task forces or committees - Discounted registration for all company representatives attending the Annual Meeting - Unlimited SPIDA literature complimentary
